

GIULIA

A NEW ERA

Alfa Romeo has always taken a unique and totally original approach to designing its cars: it is the point of convergence between design and passion, between a love for the most cutting-edge technology and a strong instinct to provide an emotive driving experience. Today Alfa Romeo is writing a new chapter in its history, introducing a future where once again the driver is at the centre of the design.

THE ALFA ROMEO GIULIA. PURE ALFA ROMEO.

ALFA ROMEO GIULIA

CHANGE THE HORIZON WITH A NEW PERSPECTIVE

Simplicity, formal balance and harmonious surfaces. A unique and unmistakable appearance, represented by the Alfa Romeo styled trilobe front grille. Alfa Romeo Giulia's curves are defined by light.

Beautiful and functional, with balanced weight distribution and rear-wheel drive, the engine and mechanics between the two axles, all power is transferred to the road.

Experience the power and passion of Alfa Romeo.

The Alfa Romeo Giulia. The attention to detail in every design feature gives the car its perfect balance.

The balance of design is not only skin deep in the Giulia. Ultra-light materials have been used to achieve optimal **50:50 weight distribution** front to rear, providing perfect driving dynamics.

The commitment given to the car's aerodynamic development resulted in a Drag Co-efficient (C_d) equal to just 0.25. It was then possible to further streamline the design of the floor of the car, improving airflow under the car and aerodynamic flow management at the rear. Both help reduce turbulence, improving dynamic efficiency.

**BALANCE HAS
NO COMPROMISES**

2.2 Turbo 190hp

A HIGH PERFORMANCE MINDSET

Every detail of the Alfa Romeo Giulia was designed to deliver the best performance in the most efficient way. The engines, all turbo-charged and built entirely in aluminium, offer an unprecedented balance of power without compromising on efficiency. There are two 2.2 litre diesel engines available with either 160hp or 190hp output as well as an all-new 2.0 litre petrol engine with either 200hp or 280hp, all driven through an 8-speed ZF automatic gearbox.

With the Alfa Romeo Giulia, let your emotion take the lead.

ALFA ROMEO GIULIA

ADVANCED TECHNOLOGY

The new Alfa™ D.N.A. lets the Alfa Romeo Giulia vary the dynamic responses and customise them according to your driving style and travelling conditions. The Alfa™ D.N.A. also interacts with the Alfa™ Active Suspension (where available): the shock absorbers adapt to the desired driving style, becoming more rigid for an involving ride, or softer, for a more comfortable drive.

- d Dynamic:** favours performance and responsiveness. The steering response is more precise, the braking more direct and the electronic control systems leave space for the enjoyment of a pure driving experience.
- n Natural:** ideal for urban driving, offering the perfect balance between performance and efficiency for everyday use.
- a Advanced Efficiency:** A new mode that allows you to maximise energy savings and minimise emission levels, perfect for long distance motorway journeys. The safety systems are at their most sensitive in difficult driving conditions.

MENU

ALFA ROMEO GIULIA

NATURALLY ENGINEERED FOR MINIMUM WEIGHT

The Alfa Romeo Giulia is designed to provide an excellent power to weight ratio thanks to the extensive use of ultra-light materials: carbon fibre for the driveshaft and aluminium for the bonnet, doors, engine, suspension and brake calipers. These choices translate to greater efficiency and better driving dynamics, for a considerable reduction in fuel consumption and emissions.

BORN INTUITIVE

The Alfa Romeo Giulia's safety systems employ today's most advanced technology to support intuitive driving with different levels of intervention, identifying risks and dangerous situations. To achieve a 5 Star Euro NCAP Safety rating the below features are fitted as standard across the range, unless stated.

Forward Collision Warning (FCW) with Autonomous Emergency Brake (AEB) with pedestrian recognition and active braking. This device warns the driver of a potential head-on collision, using acoustic and visual signals and activating the braking system. In urban driving at speeds below 31 mph, it can also detect the presence of pedestrians in the car's path and apply the brakes automatically if the driver is unable to actively intervene.

Integrated Brake System (IBS) The Alfa Romeo Giulia is the first saloon in its segment to be equipped with this innovative electromechanical device, which combines the functions of the brake system with those of stability control. With the highly sensitive brake pedal, the system eliminates any vibration in the case of ABS braking. It responds powerfully and rapidly, and can stop the car from 62 to 0 mph in a space of just 38.5 metres.

Lane Departure Warning (LDW) A video sensor installed on the windscreen recognises the road surface markings and alerts the driver with audio and visual warnings, if the driver moves out of the lane involuntarily or fails to use turn signals.

Blind Spot Monitoring (BSM) The system continuously monitors the rear blind spots on both sides of the vehicle, using two radars set in the rear bumper. Any potential risk is signalled with lights on the exterior mirrors, warning the driver of obstacles at the sides of the vehicle. (Optional, as part of Driver Assistance Pack plus)

Rear Cross-Path Detection monitors the area behind the car during reversing manoeuvres. The device signals the approach of other vehicles at a right angle to the car and at speeds lower than 22 mph. (Optional, as part of Driver Assistance Pack plus)

Alfa Romeo Giulia obtained 5 EuroNCAP stars with a score of 98%, establishing it as the safest car ever for adult protection.

MEDIA ENTERTAINMENT

Maximum connectivity with a full range of devices. Using the USB/AUX ports and Bluetooth® connection, you can listen to all your favourite music on board. The graphics and system logic are designed to make the steering-wheel-mounted controls and Rotary Pad the perfect extensions for full control of all infotainment functions.

NAVI

Based on the latest-generation TomTom platform, the system is optimised for simple, intuitive use. The interactive contextual content makes the system the perfect guide on every trip, and the thoughtfully structured display of information makes everything clear at a glance. The navigation system includes 3 years of free maps update.

MYCAR

Vehicle status constantly monitored. Vital information relayed at all times, from technical data to servicing requirements. The graphics combine flat and three-dimensional elements to facilitate use and contribute to a gratifying, full-immersion experience of the world of Alfa Romeo.

EFFICIENT DRIVE

Efficient Drive is a useful aid for all types of drivers - from the newly qualified to the most advanced. Intuitive graphics provide a qualitative analysis of driving style and offer useful information and tips for more efficient driving.

ALFA CONNECTED SERVICES

With Alfa Connected Services, the driver is always connected with his vehicle thanks to an embedded SIM, GPS and accelerometer. Remote assistance and control services are combined to guarantee increased safety on the road, complete peace of mind and easier vehicle care, all simply managed by the Alfa Connect Mobile App and by web portal www.alfaromeoconnect.eu

The smart way to use iPhone while driving. With Apple CarPlay on the main display board of Alfa Romeo Giulia, all the most useful apps can be viewed: street directions, making calls, sending and receiving messages, listening to music, all the while staying focused on the road.

androidauto

Designed for a totally safe driving experience whilst staying connected. With a user-friendly intuitive interface, integrated steering wheel commands and voice actions, Android Auto prevents unnecessary distractions while driving.

ALFA ROMEO GIULIA SUPER

Alfa Romeo Giulia Super is available with:

- 2.0 Turbo Petrol 200hp Super
- 2.2 Turbo Diesel 160hp Super

OTR PRICE

Fuel consumption figures determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. CO₂ figures, based on the outgoing test cycle (NEDC), will be used to calculate vehicle tax on first registration. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

For further information, please visit www.alfaromeo.co.uk/alfa-romeo-world/la-meccanica-delle-emozioni/certification-wltp or contact your local retailer.

¹ Higher CO₂ emissions apply with 18-19" alloy wheels, unless All season tyres (opt code 141) are selected, at additional cost.

* Fuel consumption figures determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. CO₂ figures, based on the outgoing test cycle (NEDC), will be used to calculate vehicle tax on first registration. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

For further information, please visit www.alfaromeo.co.uk/alfa-romeo-world/la-meccanica-delle-emozioni/certification-wltp or contact your local retailer.

¹ Higher CO₂ emissions apply with 18-19" alloy wheels, unless All season tyres (opt code 141) are selected, at additional cost.

ON THE ROAD CHARGES

ON THE ROAD (OTR) CHARGES INCLUDE:

First 12 months government Vehicle Excise Duty depending on CO₂ emissions (see table below), vehicle first registration fee (£55), number plate (£25.53) and delivery costs (£615).

VEHICLE EXCISE DUTY (ROAD FUND LICENCE) VALID FROM 1ST APRIL 2018

New cars are classified into one of 13 bands, depending on their carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km).

TAX YEAR 2018-19			
CO ₂ EMISSIONS (G/KM)	STANDARD RATE	FIRST YEAR RATE (PETROL)	FIRST YEAR RATE (DIESEL) [^]
0	£0*	£0	£0
1-50	£140*	£10	£25
51-75	£140*	£25	£105
76-90	£140*	£105	£125
91-100	£140*	£125	£145
101-110	£140*	£145	£165
111-130	£140*	£165	£205
131-150	£140*	£205	£515
151-170	£140*	£515	£830
171-190	£140*	£830	£1,240
191-225	£140*	£1,240	£1,760
226-255	£140*	£1,760	£2,070
over 255	£140*	£2,070	£2,070

*CARS OVER £40,000 PAY £310 SUPPLEMENT FOR 5 YEARS

[^]NEW DIESEL VEHICLES REGISTERED AFTER 1 APRIL 2018 THAT DO NOT MEET THE RDE2 STANDARD WILL BE CHARGED A SUPPLEMENT ON THEIR FIRST YEAR RATE TO THE EFFECT OF MOVING UP BY ONE VED BAND

BENEFIT-IN-KIND TAXATION

The company car Benefit-in-Kind Taxation scale is linked to the CO₂ emissions level. The table right shows the percentage of the car price to be taxed (PIID value). A simple explanation of how to calculate BIK is shown below.

EXAMPLE OF HOW TO CALCULATE BIK

1. Look at the table on the right and find the BIK tax banding to be applied according to the CO₂ emissions of your car. (For example a Diesel car emitting 99g CO₂ is 24%).

2. Work out the car's price to be taxed (PIID value) which is calculated as: Total Retail Price (Basic Price + VAT) + Number Plate (£25.53) + Delivery costs (£615) + Options (Including VAT).
3. Calculate the BIK as follows: PIID value x BIK tax banding percentage.
4. Multiply BIK figure (from 3.) by your personal tax band – i.e. 20% or 40% to give your annual BIK costs.

2018-19 % BIK RATE		
CO ₂ EMISSIONS (G/KM)	PETROL	DIESEL
0-50	13%	0%
51-75	16%	0%
76-79	19%	23%
80-84	19%	23%
85-89	19%	23%
90-94	19%	23%
95-99	20%	24%
100-104	21%	25%
105-109	22%	26%
110-114	23%	27%
115-119	24%	28%
120-124	25%	29%
125-129	26%	30%
130-134	27%	31%
135-139	28%	32%
140-144	29%	33%
145-149	30%	34%
150-154	31%	35%
155-159	32%	36%
160-164	33%	37%
165-169	34%	37%
170-174	35%	37%
175-179	36%	37%
180+	37%	37%

The mission of Mopar[®] is to ensure customers of all brands within Fiat Chrysler Automobiles receive a satisfying ownership experience for the vehicle's entire life cycle, putting their after-sales service leadership and know-how at their service. Mopar[®] looks after cars from the moment they leave the retailer onwards, guaranteeing the customer the very highest level of service, employing cutting-edge technology and innovative, original and high-quality products.

COMPREHENSIVE WARRANTY

3 Year New Car Warranty

Your 3 year new car warranty comprises of a manufacturer's 24 month warranty and a further 12 months retailer warranty, guaranteeing your vehicle against any manufacturer's defects. These warranties give you complete peace of mind during the first 3 years of ownership so that should any components fail due to manufacturing defects these will be replaced with genuine Alfa Romeo parts, free of charge. Full terms and conditions are available on request and listed in your owner's manual.

8 Year Anti-Perforation Warranty

Any perforation of the bodywork due to corrosion will be replaced free of charge during the first 8 years.

3 Year Paintwork Warranty

In the unlikely event of any paintwork defects, due to faulty materials or manufacture, we will rectify these free of charge during the first 3 years.

3 YEARS FREE ROADSIDE ASSISTANCE

The Alfa Romeo Assistance Service provides help in the event of your vehicle developing a mechanical or electrical breakdown at either the roadside or your home. The service is designed to get your car moving as soon as possible. In the event that the fault cannot be fixed at the roadside, then your car

will be taken to your nearest authorised retailer and you will be offered assistance to continue with your onward journey. Full terms and conditions are available on request.

The Alfa Romeo Assistance Service for customers is guaranteed 24 hours a day, every day of the year. If you require these services, dial the Freephone number 00800 2532 0000.

EASY CARE SERVICING PLANS

The Easy Care servicing plan is a flexible annual service plan applicable for every Alfa Romeo model. These service plans are available from one – five years and include of all the scheduled maintenance required on your vehicle depending on the term or mileage selected. They contain all of your essential servicing requirements and replicates the scheduled maintenance schedule shown. These plans include all the parts, labour and fluids required to perform the service schedule created for your car. For more information please contact your Alfa Romeo retailer.
