

# Dacia Logan MCV

Smart meets spacious

So much **room**

– you might just **move in**

# Small price, big boot(y)

You want a spacious motor. You don't want to pay through the nose. But the car market didn't give you both. That's why we built the New Dacia Logan MCV.

It's the lowest price on the market for its size, has a 573 litre boot (big enough to carry a whole family's suitcases) and it's even pretty affordable to run.

So suave you'll want to show it off, comfortable enough for long journeys, and you can customise it with the tech, trims and features you need. Talk about having your cake and eating it.

We knew we were onto a good thing when AutoExpress decided Logan MCV was the Best Family Car<sup>†</sup>. But it's all about what you think. **Put it to the test yourself.**

## Get out **there**

Some cars are good for airport runs and family camping trips. Some cars are good for nipping around town and short commutes. Then there's the Logan MCV.

Load up and hit the open road on family adventures. There's plenty of room for everyone and everyone's stuff. You'll soon find tents, bikes, furry friends and more all fit onboard easily.

If the going gets tough, you'll always get going with the **TcE 90 3-cylinder turbocharged** petrol engine. Add power-assisted steering, air-con, **Hill Start Assist** and **Stop and Start** tech to the mix, and you won't even break a sweat.

It's also dressed to impress, with restyled front and rear bumpers, an improved front grill and **LED daytime running lights**. Combined with ABS and **Electronic Stability Control (ESC)**, the Logan MCV proves bigger really can be better.

# Sitting **comfortably?**

The inside of a Logan MCV is all about making you feel right at home. Big on space. Big on comfort. Nice.

There's a lot more going on than just **market-leading boot capacity** (although that is really rather handy). Especially with the 60/40 split folding rear seats to help you fit nearly anything onboard.

How about five proper seats, new upholstery, one-touch driver's window and 12V socket in the back for the kids to charge their tablets?

And if that's not enough, you can opt for leather seats, **air conditioning**, and electric window switches in all the door panels. In other words, everything you need to travel in style.

We're big on safety too. That's why the reinforced body structure, **front and side airbags**, and height-adjustable head rests, are all in place for extra peace of mind.

# Little life-hacks

Just when you thought the Logan MCV couldn't get more practical, you can add some seriously smart gadgets. Finding your way from A to B, making hands-free calls or playing your tunes – if it's not genuinely useful, you won't find it in a **Logan**.

Pump out the jams with DAB, FM and AM radio as standard in the Ambiance model. Or the handy AUX and USB inputs, for when only your own tunes will do. Need to take that important call? No problem, do it safely with Bluetooth™ connectivity\*.

Wave goodbye to dodgy directions. The Lauréate model's 7" Touchscreen MediaNav system includes SatNav with voice guidance. So there's no need to stress over maps when you're heading out on your next adventure.

## The power behind your adventures

Whether you're hitting the shops or the slopes, you can relax every time you turn the key. All our engines are rigorously tested, over 800,000 kilometres of test driving in fact.

## Pick the engine for your lifestyle:

The new **SCe 75** engine is a great all-rounder

The turbocharging **TCe** engine offers more performance

- Produces 90bhp from its 3-cylinder, 898cc engine, yet still achieves 57.7 mpg combined and CO2 emissions of 109g/km\*.

For ultimate fuel efficiency, try the **dCi 90** diesel engine.

- An impressive 80.7 mpg and CO2 emissions of only 90g/km\*.

\*Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single car. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment, for example air conditioning, can also effect the fuel consumption. # The Dacia way

Fourteen years isn't long. But in that time we've grown from unknown to worldwide warriors. We've sold 4.5 million Dacias globally since 2004. And since we launched in the UK in 2013, 100,000 smart folk have bought themselves Dacias.

It takes something different to make an impact like that. And we've got different by the shed-load.

See, we think practicality should always come first. No silly frills, just exactly the kit and quality you need. So that's what our simple range of smart, reliable cars give you. Our prices are always clear, whether you buy online or at our dealerships across the country. Plus, they're shockingly affordable.

Maybe that's why we've been the **fastest growing car brand** in Europe since 2004. Or maybe it's the awards we keep winning. Who knows? Don't just take our word for it – we've been left loads of genuine customer reviews on **Dacia.co.uk**, and we're pretty popular on car forums too.

Did you know we're part of the **Renault Nissan Alliance**, and share our head office with Renault? That means we also share their **nationwide dealer network**. So if you want to pop in for a look, chat or test drive, chances are we're pretty close by.

**Drop in;** it's easy to find your local dealer at **dacia.co.uk/find-a-dealer**.
