

# RENAULT MEGANE

1st December 2021

**the essentials**

**hatch and  
sport tourer  
versions**

**plug-in Hybrid  
engine**

**4 driving  
assistance  
systems**

**boot volume  
of up to 308 l  
on hatch**

**boot volume  
of up to 447 l  
on sport tourer**

MEGANE

## iconic design

Combine refinement and modernity with Megane. Its dynamic lines are backlit with the emblematic C-shaped brand light. The radiator and chrome grille are complemented by a redesigned front bumper. With its muscular shoulders, the Sport Tourer version displays a high-status design.

**interior quality**

1

1. 9.3" easy link multimedia screen and 10.2" digital instrument panel

The interior equipment combines elegance and the latest technology. High-quality materials and comfort combine to offer a contemporary feel. The 9.3" easy link multimedia screen and 10.2" configurable digital instrument panel with navigation replication connect you to a world of emotions.

MEGANE

# sportiness embodied

The Megane R.S. line version exudes sportiness. F1® blade built into the honeycomb bumper, 17" Monthlery diamond cut alloy wheels, two exhaust pipes and aerodynamic spoiler reinforce the ultra-dynamic style of the bodywork with the R.S. line badge. Inside, discover the distinctive marks of a real sports car: perforated leather sport steering wheel with double diamond R.S., brushed aluminium competition-type pedal unit, reinforced support seats with Alcantara upholstery.

**new perspectives**

The E-Tech plug-in hybrid technology is straight out of F1® and combines two electric engines and one 1.6 l petrol engine. This new concept marries the versatility of the hybrid with the driving pleasure of the electric thanks to its new and innovative multi-mode clutch-free gearbox. In electric mode, you have up to 30 miles of driving range<sup>(1)</sup> and reduce fuel consumption and CO<sub>2</sub> emissions by up to 70% compared to those of an equivalent combustion-engine vehicle. With silent and lively starting, regenerative braking and deceleration and unrivalled driving flexibility, you will also discover new sensations behind the wheel. Easy to drive, Renault Megane E-Tech plug-in hybrid can be connected to a charging point or domestic socket<sup>(1)</sup> using the readily available charging cable stored in a dedicated boot space.

(1) Charge your battery in just 3 hours using a 16 A socket (Wallbox or public charging point).

1. remote charging control via My Renault application
2. multi-sense technology on 9.3" central screen: 100% Pure electric mode

## advanced technology

The multi-sense technology enables you to choose between the different driving modes: 100% Pure electric mode, or My Sense and Sport modes, which combine electric and combustion engine use, with a livelier and more exciting drive in Sport mode. With the E-Nav function that can be activated in My Sense mode, you can use the electric motor at the most appropriate moments of your journeys once the navigation system has been programmed. In this way, you save up to 10% on fuel consumption and optimise the battery discharge. You can also control vehicle charging remotely and enjoy various connected services with the My Renault application.

1. smartphone replication via Android Auto™ or Apple CarPlay™
2. 3D navigation interface with Google address search
3. multi-screen interface: driving assistance, multi-sense and customisable widgets

**connected to your  
everyday life**

3

The Renault multi-sense system offers you a personalised driving experience. A choice of 8 lighting moods and 4 modes are available. The R-Sound app lets you configure your musical and sound surroundings. With easy link - compatible with Android Auto™ or Apple CarPlay™ - and its connected navigation system that is replicated on the 10.2" digital instrument panel, send your destination to your vehicle from your smartphone so that it can offer you the best door-to-door journey options. My Renault also suggests the best route for the last few metres on foot and helps you find your parked car.

Android Auto™ is a trademark of Google Inc.  
Apple CarPlay™ is a trademark of Apple Inc.

1. up to 308 litres of boot volume on hatch and 447 litres on sport tourer

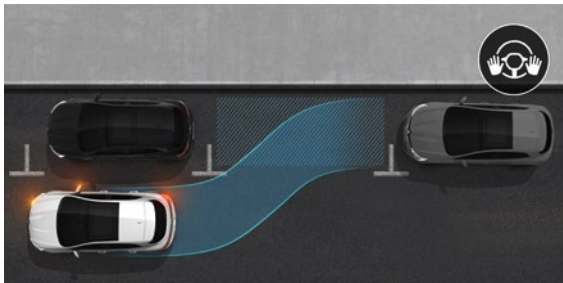

## modular layout and comfort

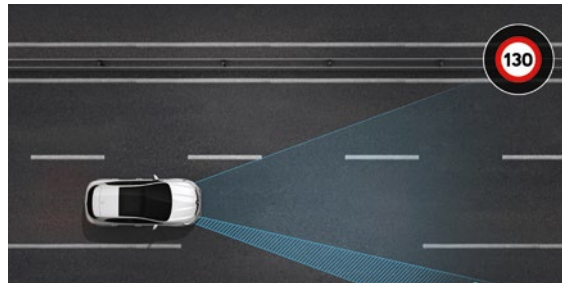

# 4 driving assistance systems

Renault Megane is equipped with multiple assistance systems driving innovations, selected from below. Resolutely safe, it promises you a safe journey.

## hands-free parking (exclusive to R.S. Line)

This system makes it easier to park. Your vehicle handles both finding a parking spot and steering. All you need to manage is the speed.

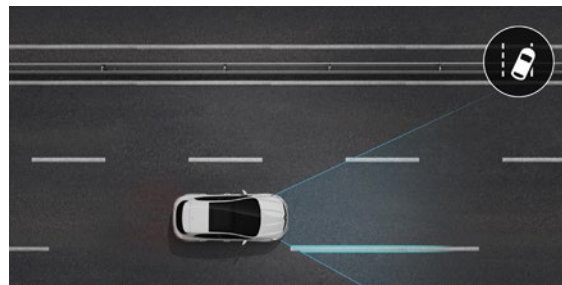

## traffic sign recognition

This system informs you of speed limits via the instrument panel and alerts you if you exceed the speed limit thanks to a camera positioned at the top of the windscreen.

## advanced emergency braking system

This system detects vehicles to the side or in front, and stops the vehicle in the event of any danger. Driving in the city has never been so safe, day or night.

## lane departure warning

The system informs the driver of unintended crossings of a solid or broken line, using a camera located on the windscreen, behind the rear-view mirror.

# accessories

1. **Roof bars and locker.** Enjoy additional space by equipping your All-New Megane with QuickFix roof bars. They are easy to fit to accommodate ski racks, bicycle racks or even one of our roof lockers.

**2. Retractable towbar with tilting bicycle rack.** Take your mountain bikes on a weekend getaway or tow a trailer, thanks to the retractable towbar. The rest of the time, the design of your All-New Megane is preserved as you can hide it under the rear bumper.

**3. Induction charger.** No matter how long your journey, stay connected with the integrated induction smartphone charger.

**4. Adaptable EasyFlex protection.** This non-slip and waterproof system is essential for protecting your vehicle's boot and carrying bulky or dirty loads. It folds and unfolds very easily, adapting to the position of the rear seats.

**5. Protective film.** Protect your vehicle against everyday nicks thanks to transparent protection film. Minor dents, scratches or even repeated friction are no longer an issue.

some accessories require the vehicle to be registered before fitment. Your local dealer will be able to offer further advice and supply a dealer fitted price for vehicles already in dealer stock. Accessories are fitted post production and may have an impact on real world fuel (actual) consumption and CO<sub>2</sub> figures.

for more information, consult the Megane accessories brochure.

# Renault care service

We are always at your side to make life easier and save you time with the maintenance of your Renault: online quotes and appointments, fixed price packages, maintenance contracts, insurance and assistance, personalised My Renault programme, etc. Take advantage of our simple, fast solutions tailored to your needs.

## **your first steps**

All the information you need can be found :

- on our websites, product/service/financing offers, test drive appointments, etc.
- in our dealership network, meetings with our sales and technical teams.

## **Renault care service, 100 % covered**

Guard against the unexpected with Renault extended warranties, insurance policies and assistance, which are always there for you.

## **My Renault, day-to-day partner**

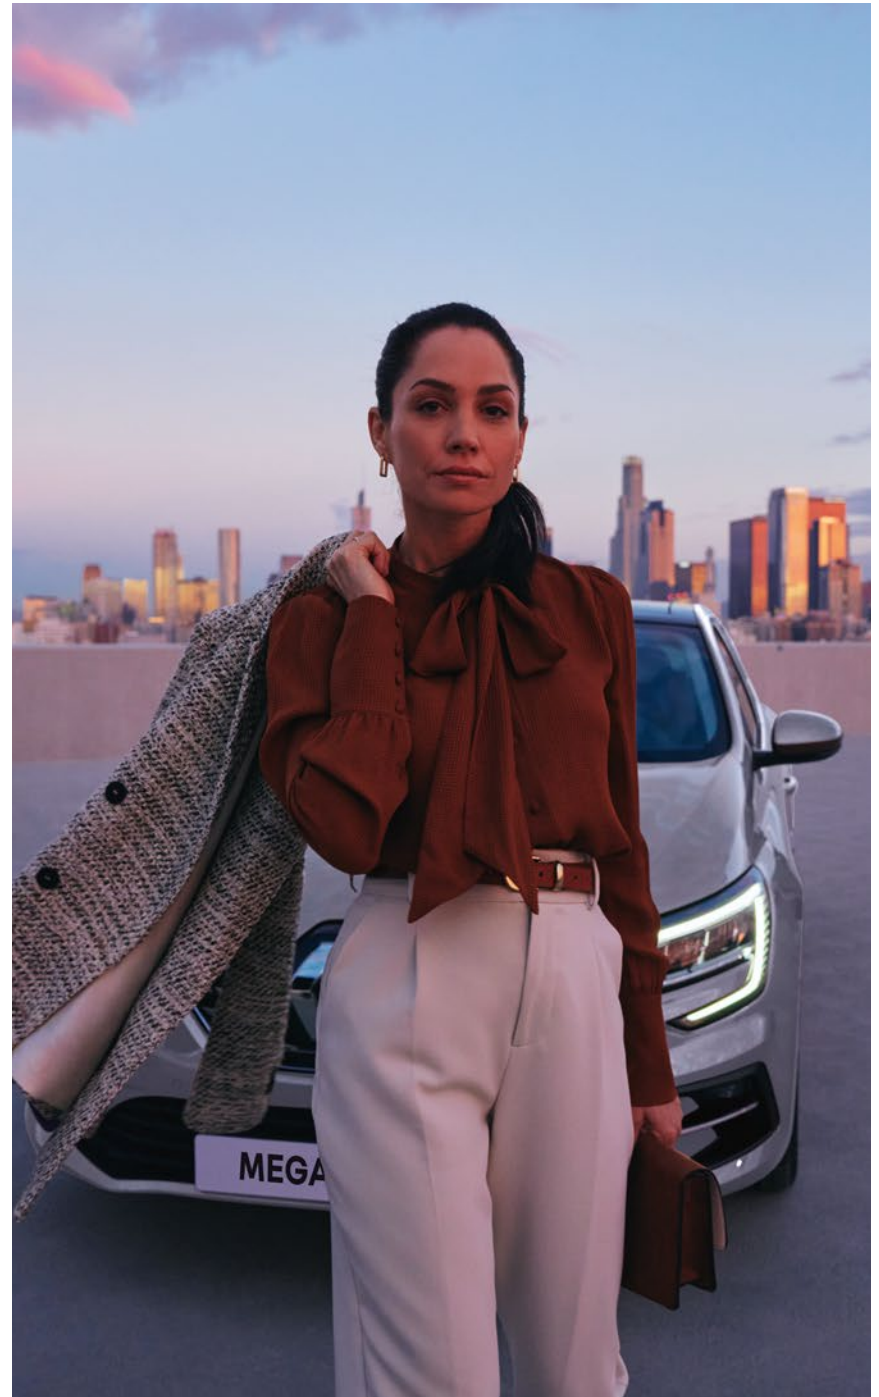

Enjoy the benefits of a personalised web account, especially for advice, offers, exclusive perks, maintenance programme reminders, your upcoming appointments, etc.

## **Renault care service, worry-free maintenance**

Our Renault care service maintenance contracts and fixed price packages offer you the benefits of a bespoke all-inclusive package.

## **accessories, your custom Renault**

Our range of accessories contains everything you need to make your vehicle even more attractive, practical, comfortable and customised.

# Megane the icon

**25 years of exacting standards**

The first mass-produced Megane entered dealerships during the summer of 1995. The chassis and engines were modelled after the technical framework inaugurated with the Renault 19 a few years earlier. To these technologies, which have been tried, tested and improved over time, engineers have added a new requirement in terms of perceived quality.

But it is above all in terms of bodywork choices that the new arrival innovates. Alongside the traditional 5-door compact saloon, Megane comes in five versions: Megane Classic with a large boot; Megane Estate for family weekends; Megane Coupé for sporty driving; Megane Cabriolet to replace the Renault 19 Cabriolet; and Megane Scenic, the first compact passenger van that can accommodate five people with bags and luggage in a spacious, modern and modular passenger compartment.

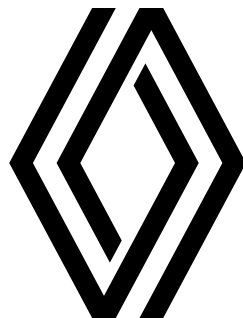

“Very compact profile, beak grille, rear door cut-out outlining a perfect curve, Megane is undoubtedly the most elegant and most successful version of its generation, aesthetically speaking”, proclaimed the Auto Moto magazine car tester in December 1995 when describing the 5-door Patrick Le Quément version.

**→ four generations since 1995**

The first Megane would be produced from 1995 to 2002. In 2002, a second version broke away from the design of the first version. The third generation would appear at the 2008 Paris Motor Show. As for the fourth, you only need flip through the pages of this brochure to understand that Megane has never been so trendy, with new shapes and equipment worthy of top-of-the-range saloons.

## configure and order your Renault Megane on [www.renault.com](http://www.renault.com)
