DESIGN STUDIO

# New and definitely improved

Life never stands still. And nor do we. That's why we're making a few important improvements to make our range even better.

Firstly, Renault fully supports the introduction of the new emissions testing procedure, called 'Worldwide Harmonised Light Vehicle Test Procedure' (WLTP). WLTP represents a positive change to provide consumers with fuel economy and emissions data which is more representative of the results you may achieve in real life.

We're also streamlining our range, making sure all our models are even more stylish and packed with essential features.

Our new Easylife range is now available across the entire Renault car range, making your decision of which stylish model even easier to make. But if you've got your heart set on one of our existing models, don't worry: they're still available to buy too.

The end result is that a new Renault is even harder to resist. But don't take our word for it, try one today.

## Vehicle Excise Duty

The amount of Vehicle Excise Duty (Road Fund Licence) payable on new cars varies depending on the level of CO<sub>2</sub> (Carbon Dioxide) emissions produced by the vehicle and the type of fuel used. The table below illustrates the 'CO<sub>2</sub> banding' and, therefore, the amount of Vehicle Excise Duty payable. These bandings are effective from 1st April 2020 and supersede any previous bandings.
