

SUBARU BRZ

SUBARU

Confidence in Motion

LOVE EVERY TURN.

A great sports car has looks. It has powerful acceleration. And, crucially, it's utterly exhilarating to drive. With a low centre of gravity, light weight and precise, responsive steering, you can take every turn with confidence - and smile leaving each bend. Acclaimed by both owners and the motoring press, meet the SUBARU BRZ: sports car handling - beautifully poised.

EXCITEMENT. ENGINEERED.

The SUBARU Boxer engine is a driver's delight. The power delivery is linear, so acceleration is predictably responsive. Right throughout the rev range, it delivers exactly what you expect.

Coupled with impressive braking, handling and steering, the SUBARU BRZ gives you true sports car excitement - with absolute precision and control.

Low Centre of Gravity.

Every element of the SUBARU BRZ, from the horizontally-opposed 200 PS Boxer engine, to the roofline, to the seating position, helps give the SUBARU BRZ one of the lowest centres of gravity of any mainstream vehicle. The result: effortless, exhilarating yet predictable handling and exceptional road holding.

MASTER ANY ROAD.

The SUBARU BRZ turns driving from an everyday necessity to a daily joy. Through every corner entry, apex and exit the communicative steering and impressive balance encourage you to develop and hone your driving technique. If driving wasn't a passion before an encounter with the SUBARU BRZ, it will be after.

Balance Matters.

The SUBARU BRZ design unites a lightweight body and a taut, rigid chassis. Combined with a sporty suspension, the SUBARU BRZ delivers a sleek, authentic, driving experience. The slim, centrally-mounted Boxer engine lowers the centre of gravity. In corners or when braking this even weight distribution and traction limits chassis roll and pitching, improving handling and ride comfort.

REDISCOVER THE JOY OF DRIVING.

The SUBARU BRZ's striking exterior gives it a strong on-road presence. Subtle design cues complement the lines whilst improving aerodynamic performance. The result: a SUBARU BRZ that looks low, wide and elegant whilst staying faithful to its original design DNA.

LED Headlamps

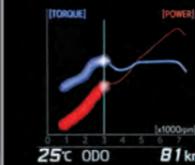

Powered by full LEDs, the SUBARU BRZ's iconic headlamps provide improved visibility and give the car a commanding presence on the road.

17" Alloy Wheels

These 17" aluminium-alloy wheels come with a 10-spoke design for a more sophisticated and sportier look, hinting at the SUBARU BRZ's handling performance.

ERGONOMIC DESIGN.

The SUBARU BRZ's ergonomic interior design and equipment puts everything at your fingertips. A leather-trimmed steering wheel sits perfectly in your palms, whilst the short-throw gearshift makes for fluid driving. The 4.2" LCD multi-information display, just above the steering wheel, features additional driver content, increasing the SUBARU BRZ's sophistication as a sports car.*1

Engine Data Display

View engine performance, including torque and power.*2

G-monitor Display

Displays peak hold, a steering angle, braking force and throttle angle.

Temperature Gauge Display

Displays engine coolant temperature, oil temperature and voltage gauges.

Stop Watch Display

Keep track of your driving performance and times.

Trip Computer Display

Monitor your average speed, trip time, and trip distance.

SUBARU STARLINK*1

Access the audio system and make phone calls via the SUBARU STARLINK*1 Infotainment System. Control operations via the central 6.2" multifunction touchscreen and steering wheel controls, or simply use your voice.*3 Can't find your favourite music? Just connect your smartphone or other mobile music device via the USB or standard AUX jack.

Voice Recognition*3

Various functions can be controlled remotely using voice recognition, allowing you to keep your eyes and attention on the road. Just tap the steering wheel controls and speak naturally, issuing verbal commands to make a phone call or play a song.

*1 Driver is responsible for safe driving. Please refrain from operating the touchscreen whilst driving.

*2 Torque and power curves are not actual measurements and are based on pre-set values.

*3 Voice Recognition is compatible with select languages only.

FEEL THE PASSION.

Any performance enthusiast will feel how the SUBARU BRZ interior achieves driver connection and control. Leather and Alcantara® sports front seats give you excellent support during high-performance driving, whilst folding rear seats let you further increase baggage capacity when needed.

Folding Rear Seats

You wouldn't expect a pure sports car to be so practical, but with the rear seats folded, there's plenty of space - even enough room for two golf bags.

Leather & Alcantara® Trim

Premium leather trim and Alcantara® sports front seats help you keep your position whilst cornering. Embroidered with the SUBARU BRZ logo, they also offer a lowered seating position to bring the vehicle's centre of gravity down even more.

SUBARU CORE TECHNOLOGY.

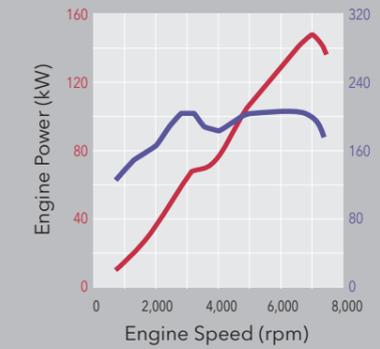

From conception, the SUBARU BRZ was engineered to delight sports car purists. Uniquely low and compact, the reliable SUBARU Boxer engine was chosen as the foundation upon which this sports car would be built – one with responsive steering, light weight, and spirited driving character.

Torsen® Limited Slip Differential

Exhilarating precision in every corner—that's what sets a SUBARU BRZ apart. An advanced Torsen® limited-slip differential helps you stay on your line during a high-speed turn whilst enhancing comfort and control on rough roads.

POWER OUTPUT

This 200 PS engine loves to be revved. With a high redline, a flat torque curve and 100 PS per litre, you can be sure there's plenty of power no matter what rpm you're at. You'll have less impact on the environment, and more excitement at the wheel.

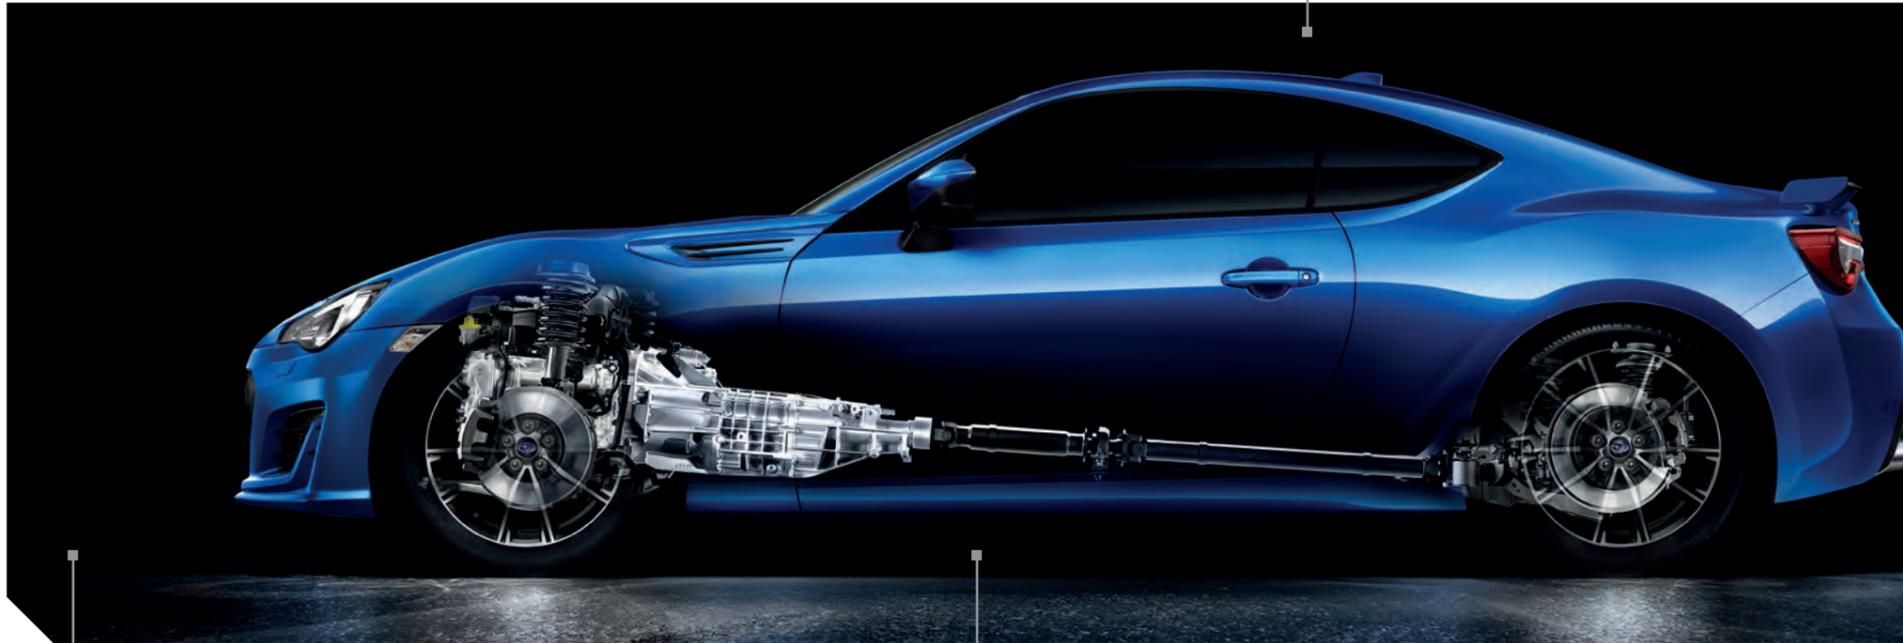

MAX OUTPUT:
200 PS @ 7,000 rpm

MAX TORQUE:
205 Nm @ 6,400 - 6,600 rpm

FUEL CONSUMPTION (Combined):
Manual: 36.2 MPG*¹
Automatic: 39.8 MPG*¹

CO₂ EMISSIONS:
Manual: 180 g/km*¹
Automatic: 164 g/km*¹

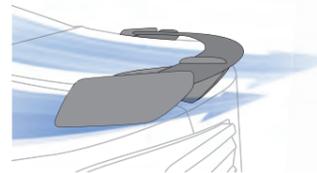

Sports Car Drivetrain

Laid out symmetrically, the SUBARU Boxer engine puts the crankshaft perfectly in line with the driveshaft to provide tremendous stability and dynamic agility. By using a rear-wheel drive configuration, SUBARU engineers could place the engine farther back to offer you precise control during cornering. This agile platform is combined with a quick-ratio steering system – tuned to react with astounding precision and immediacy to every input.

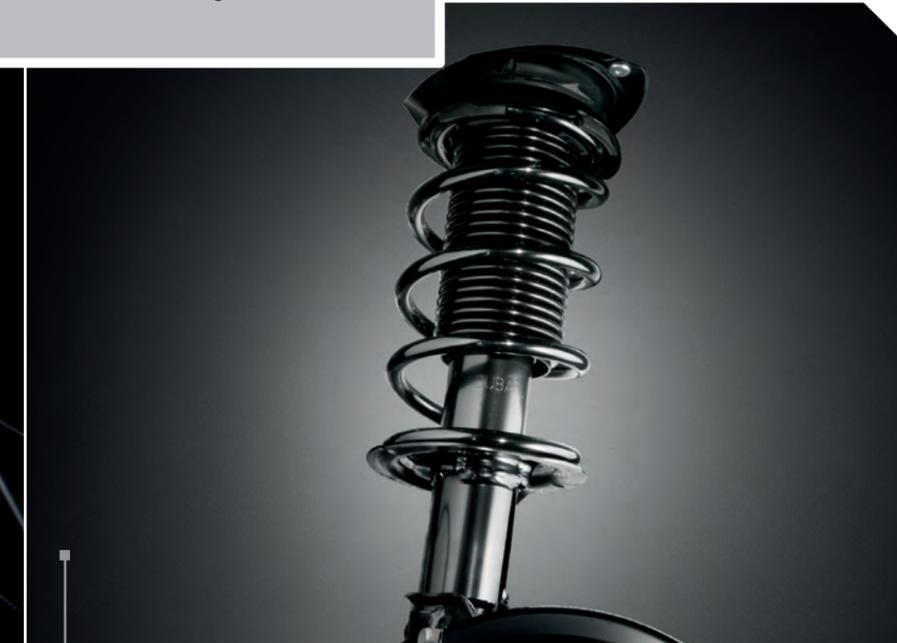

Using Air to our Advantage

The wide aluminium-alloy pedestal spoiler gives the SUBARU BRZ a stylish, aggressive presence on the road as well as enhanced aerodynamic performance. Its shape helps direct airflow for efficiency and also increases downforce for control and stability at speed.

SUBARU Boxer Engine

The SUBARU Boxer engine powers the SUBARU BRZ to new heights. We've placed this 2.0-litre engine lower, made it more compact and moved it closer to the driver. It's the first engine of its kind to feature direct and port fuel injection technology which enhances both responsiveness and fuel efficiency. It's a one-of-a-kind design – and offers a new level of driving satisfaction.

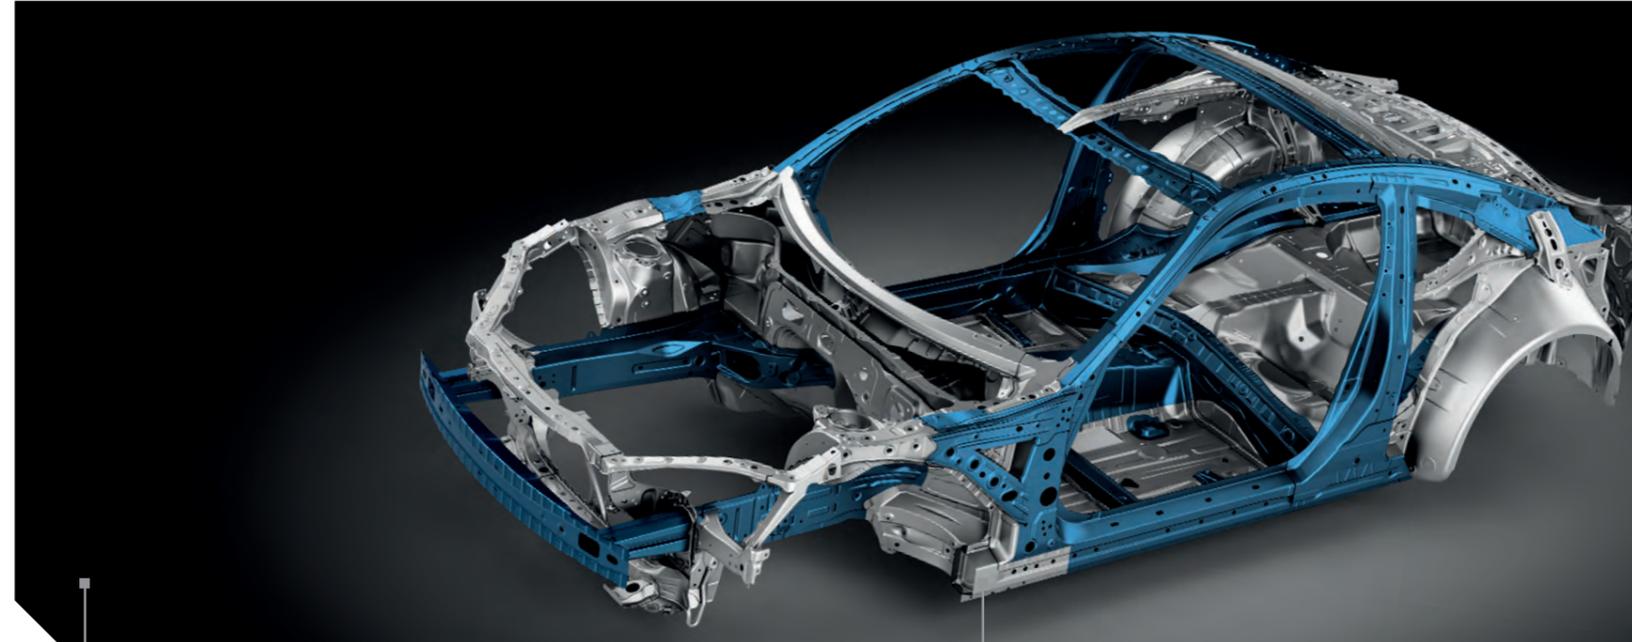

Performance Suspension

A fully independent suspension brings out every bit of agility and responsiveness the SUBARU BRZ has to offer. MacPherson-type front struts increase rigidity and a feeling of direct control by allowing the SUBARU Boxer engine to be placed even lower in the chassis. A double-rear wishbone design absorbs bumps without sacrificing control. All of this results in a SUBARU BRZ with improved ride comfort whilst maintaining driving stability.

*¹ Fuel consumption and CO₂ emissions: According to EC715/2007-2015/45W.

ALWAYS IN CONTROL.

Superior performance demands superior safety. The SUBARU BRZ features extensive active and passive protection with systems like Vehicle Stability Control to help keep you on your intended path, ring-shaped reinforced framing and airbags offering your passengers the best possible protection.

Lightweight Body

Simplicity in design and extensive use of high-tensile steel has helped reduce weight whilst making the chassis more rigid. An aluminium bonnet lightens the vehicle further, whilst bringing the centre of gravity even lower.

Ring-shaped Reinforcement Frame

The SUBARU BRZ offers both intense control and intense protection. Its frame strengthens the passenger cabin from the roof to the doors, pillars and floor. This design, bolstered by generous use of high-tensile steel, helps to dissipate impact energy away from the occupants in a collision.

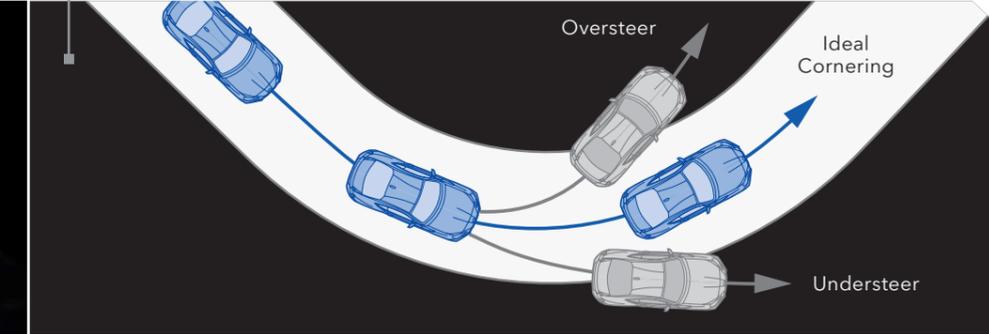

SRS* Airbags

Heightened control and visibility are central to the SUBARU BRZ. However, should an accident happen front, front-side and curtain SRS* airbags are fitted as standard to help protect you from an impact. The SUBARU BRZ also comes with a knee SRS* airbag as standard, which helps protect the driver's lower limbs.

Vehicle Stability Control

This advanced electronic system monitors an array of sensors – including braking, steering and yaw sensors – to help mitigate unexpected over or understeer, offering greater control and handling in your SUBARU BRZ.

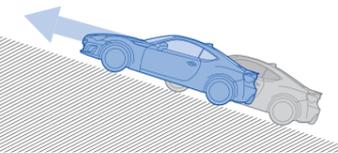

TRACK Mode

TRACK mode gives more options for a wider range of control with four available modes ranging from normal to sporty driving. You can elect to turn off Vehicle Stability Control, allowing a pure, direct driving experience.

High Visibility

A car that's a thrill to drive should also inspire confidence. Clever interior design gives you exceptional visibility from all angles – ensuring you remain fully aware of your surroundings.

Hill Start Assist (HSA)

The Hill Start Assist system keeps the brakes applied for one or two seconds after the brake pedal is released on a slope. This prevents vehicle rollback and makes it easier to move off on an incline.

* SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

SUBARU BRZ

DIMENSIONS

L x W x H: 4,240 x 1,775 x 1,320 mm

FEATURES

1 Side Fin Blade

The Side Fin Blade has been updated to a sportier, more dynamic look. The new double fin design also helps straighten airflow.

2 Rear Combination Lamps

The stylish clear and red rear combination lamps, powered solely by LEDs, give the SUBARU BRZ's rear view a wide and sporty look.

3 LED Fog Lamps

These LED fog lamps have inner reflective surfaces that are adjusted for enhanced visibility and improved safety during night driving.

4 Twin Tail Exhaust

These enlarged exhaust pipes hint at the SUBARU BRZ's sporty performance.

5 Paddle Shifters

Standard on automatic transmission, make fast, crisp gear shifts effortlessly with your fingertips.

6 Keyless Entry with Push-button Start

Start your SUBARU BRZ without removing your key from your pocket or handbag.

7 Dual-zone Automatic Air-conditioning

An advanced climate control system lets both passenger and driver each set their own preferred temperature.

8 USB and Auxiliary Audio Input Jack

Plug in a USB-enabled device to play your music through the car's audio system or use the 3.5 mm audio jack with just about any portable music player.

SUBARU

Confidence in Motion

The service intervals for all SUBARU BRZ models are every 12 months / 10,000 miles, whichever comes sooner. The SUBARU BRZ is covered by a 5 Year / 100,000 miles (whichever is sooner) Limited Warranty. This comprises of a standard 3 Year / 60,000 miles (whichever is sooner) Manufacturer's Warranty (bumper to bumper, excluding clutch driven plate) and an Extended Warranty that applies to the powertrain only, provided by the importer, to complete the 5 Year / 100,000 miles (whichever is sooner) Limited Warranty. All vehicle bodywork is covered by a 12 Year Anti-Corrosion Warranty and paintwork is covered by a 3 Year / 60,000 miles (whichever is sooner). Added reassurance is provided by a comprehensive 3 Year Recovery and Assistance Programme valid in the UK only. For general terms and conditions visit SUBARU.co.uk.
