## 05. advanced driver assistance systems

# up to 14 advanced driver assistance systems

Renault Captur is equipped with up to 14 innovative advanced driving assistance systems. Tried and trusted, it promises a safe and secure driving experience.

### safe following distance warning

A radar at the front of your vehicle calculates the safe following distance between you and the vehicle in front. If there is any risk of collision, the system triggers an audio and visual warning.

### road sign recognition

It keeps you informed via the instrument panel of the speed limits along your route thanks to a camera.

### lane departure warning

This system lets the driver know if they unintentionally cross any solid or broken lines, using a camera located on the windscreen, behind the rear-view mirror.

### lane keeping assist

Active between 70 km/h and 160 km/h, this system corrects the steering wheel, returning the vehicle to its lane if you ever cross a continuous or broken line without indicating.

### driver assistance systems

- road sign recognition and speeding alert
- cruise control/speed limiter
- gear change assist
- auto headlights
- automatic windscreen wipers with rain sensors

### park assist systems

- front and rear parking sensors\*
- rear view camera\*

### safety assistance

- safe following distance warning
- lane departure warning
- lane keeping assist
- automatic main beam/dipped headlight activation\*
- hill start assist
- AEBS - active emergency braking system
